Software Operating System Compatibility

All current software provided by Intelligent Recording is compatible with Windows 7, Windows 8 and Windows 10. Current software is available for download on our website on the Downloads page:

<http://www.usbcallrecord.com/index.php/download>

All BackOffice Installations: The host PC should be a NEW and dedicated PC. It is not recommended to load the BackOffice software and install XTR hardware on a PC that is shared with other critical applications; doing so may cause conflicts that could jeopardize the stability of the PC or applications.
